SKIMMING & PLASTERING

Professional finishing to walls and off shutter concrete can make a good build great. As well as providing protection against environmental factors, our range of plasters and skimming compounds will bring functionality and aesthetic quality to external and internal walls.

- **Multi Concrete Surface Dressing**
Decorative concrete surface slurry
- **Multi Skimcoat 409**
Cementitious skim coat for walls
- **Multi Feather Finish**
Fast setting cement based feathering compound
- **Multi Lite**
Finishing Plaster
- **Multi Grout 801 Stadium Grey (SG)**
Off shutter concrete finish
- **Skimcoast Stadium Grey**
Off shutter coloured skim coat for walls
- **Multi Plast 1038**
Structural repair plaster
- **Multi Marble Plaster**
Smooth pigmented plaster
- **Multi Plaster Skim Exterior**
White skimming and crack filling compound

MULTI SKIMCOAT409

MULTI BIT 1702

WATERPROOFING PRODUCTS

Waterproofing is the process of making a structure waterproof or water-resistant so that it remains relatively unaffected by the ingress of water under adverse conditions.

- **Multi Hyseal 211 Flex**
Cementitious waterproofing slurry
- **Multi Bit 1702**
Bitumen waterproof coating
- **Multi Aquastop 1035**
Rapid set waterproofing slurry
- **Multi Expansion Tape**
Solid active joining strip
- **Multi Metal Primer**
Acrylic cement metal barrier
- **Multi Hyseal 310**
Flexible waterproofing slurry
- **Multi Silicoat 1230**
Water-based penetrating sealer
- **Multi Flex Bandage**
Sealing system for irregular joints
- **Polyester Membrane**
Tight woven fabric membrane
- **Multi Flex 1205**
Mortar waterproofing bonding agent

NON-SHRINK GROUTS

Non-Shrink grout is a hydraulic cement grout that, when hardened under stipulated test conditions, does not shrink, so its final volume is greater than or equal to the original installed volume.

- **MultiGrout CEM60**
Rapid set non-shrink grout
- **MultiGrout 815NP**
Bulked packing non-shrink grout
- **MultiGrout 820SG**
GranoScreed non-shrink grout
- **MultiGrout 800N**
Flowable non-shrink grout
- **MultiGrout 801GP**
Pourable non-shrink grout
- **MultiGrout 803WP**
Water-resistant non-shrink grout

CONCRETE TOPPINGS & LEVELLING SCREEDS

Leveling Screeds are used to form a flat and level surface with adequate strength and resistance to indentation on which overlays can be installed. Concrete toppings increase the ability of the floor to withstand impact and load bearing capacities by diversifying stress over the surface of the substrate.

- **Multi Durascreed 50**
High strength industrial topping
- **Multi Armor Floor 100**
Metallic dry shake floor hardener
- **Multi Durashake 60**
Dry shake floor hardener
- **Multi Armor Screed 120**
Iron infused floor screed
- **Multi Mortar Repair Kit**
Structural repair mortar
- **Multi Plaster Bond**
Ready to use bonding agent
- **Multi Bond 1070**
Concentrated bonding agent
- **Multi Floor Coat 1055**
Concrete surface densifier
- **Multi Feather-Flow Light**
Premium self-levelling screed
- **Multi Feather-Flow Super**
High strength self-levelling screed
- **Multi Feather-Flow Fast**
Rapid set self-levelling screed

MULTI FEATHER-FLOW LITE

MULTI DURASCREED 50

EPOXY/POLYURETHANE ADHESIVES

Epoxies are used in a wide array of industrial applications because of their toughness, strong adhesion, chemical resistance and other specialized applications.

- **Multi Poxy 1927**
General purpose adhesive paste
- **Multi Poxy 1306**
Liquid crack injection
- **Multi Poxy 1304**
Pourable dowel adhesive
- **Multi Seal PU 25**
Single component gun grade joint sealer
- **Multi Poxy 1305**
Wet to dry primer for concrete
- **Multi Poxy 1309**
Road stud adhesive
- **Multi Fix**
Dowel anchoring and crack filling

RELEASE OILS & CURING

A curing compound is a liquid substance that is added as a surface coating on freshly installed concrete used to reduce the loss of water to create conditions favourable to concrete curing.

- **Multi Cure 200**
Water based curing compound
- **Multi Cure 300C**
Resin based curing compound
- **Multi Cure 300W**
White resin based curing compound
- **Multi Easy Strip 342**
Diesel based release agent

CONCRETE ADMIXTURES

Admixtures enhance concrete mixtures with added workability, durability or early and final strength.

- **Multi Flow 600**
Water reducing set retarder
- **Multi Flow 604**
Concrete set accelerator
- **Multi Surface Retarder**
Surface retarding agent
